

At Gen 4 Energy., David Carlson is Chief Operating Officer.

David has over 30 years of nuclear experience. He was a senior executive of Duratek, a publicly traded nuclear services company, where he headed M&A activities and served as COO of the Commercial Business Segment. He spent over 15 years in senior management roles, both at Duratek and its predecessor companies, including serving as a Director at the Idaho National Laboratory. He was most recently COO at Aqua-Chem, a manufacturer of water purification equipment for global markets. David started his career as an officer in the U.S. Navy nuclear program where he served on nuclear submarines, in shipyards, and in the Pentagon.
