

Al Shpyth, M.E.S.
Associate, Senior Environmental Specialist

Mr. Shpyth joined EcoMetrix in 2012 to lead the opening of the Saskatoon office. He has a masters in environmental studies from York University with a focus on environmentally sound policies and practices, and a bachelor of arts degree in economics/land use & environmental studies from the University of Saskatchewan. He comes to EcoMetrix with 15 years' experience in the uranium and nuclear industries and 5 years with the Government of Saskatchewan.

While in industry, Mr. Shpyth was seconded for two years to the Canadian Nuclear Association in Ottawa where he served as director, regulatory & environmental affairs, and also served as chairman of the Uranium Section of the Saskatchewan Mining Association.

His areas of expertise include: due diligence, compliance and EMS development; environmental assessment, public meetings and stakeholder involvement; and regulatory liaison, permitting and approvals.
